

## Part 1 – Photos and Planning

In Part 1 of our project, you will need to gather *at least* 16 photos. Seems simple enough.

**What kind of photos?** Good question – here’s the parameters to consider...

1) In Part 2 you will be editing your photos into 4 different styles. So, you may want to look ahead at what these styles look like. I can wait...

2) *After you have looked ahead...*

As you probably noticed, some styles work better for different types of images (light vs. dark, landscape vs. portrait, still vs. action, etc.)

3) Your photos do not need to be at the school. You can take photos around the school, but you can also use photos you have on your camera roll or phone – the photos must have been taken by you.

### Criteria:

- Gather 16 new photos, taken by you.

**Total Value: 20 marks**

*Stuck for ideas? Check out these prompts to get you started...*

- > Something red
- > Something square
- > Something electric
- > Something shiny
- > Something purple
- > Something fluffy
- > Something circular
- > Something green
- > Something tiny
- > Something colourful
- > Something tall
- > Something with straight lines

- > Something noisy
- > Something sharp
- > Something smaller than a mouse
- > Something tasty
- > Something to eat
- > Something dirty
- > Something light
- > Something with wheels
- > Something heavy
- > Something with hair
- > Something with texture

- > Something moving
- > Something inside
- > Something outside
- > A sign
- > Something with unique colours
- > Something down a hallway
- > Something to write with
- > Something from a pocket
- > Something with numbers
- > Something from up high
- > Something from down low
