

# A Very Small Collection of Typographic Poster Samples

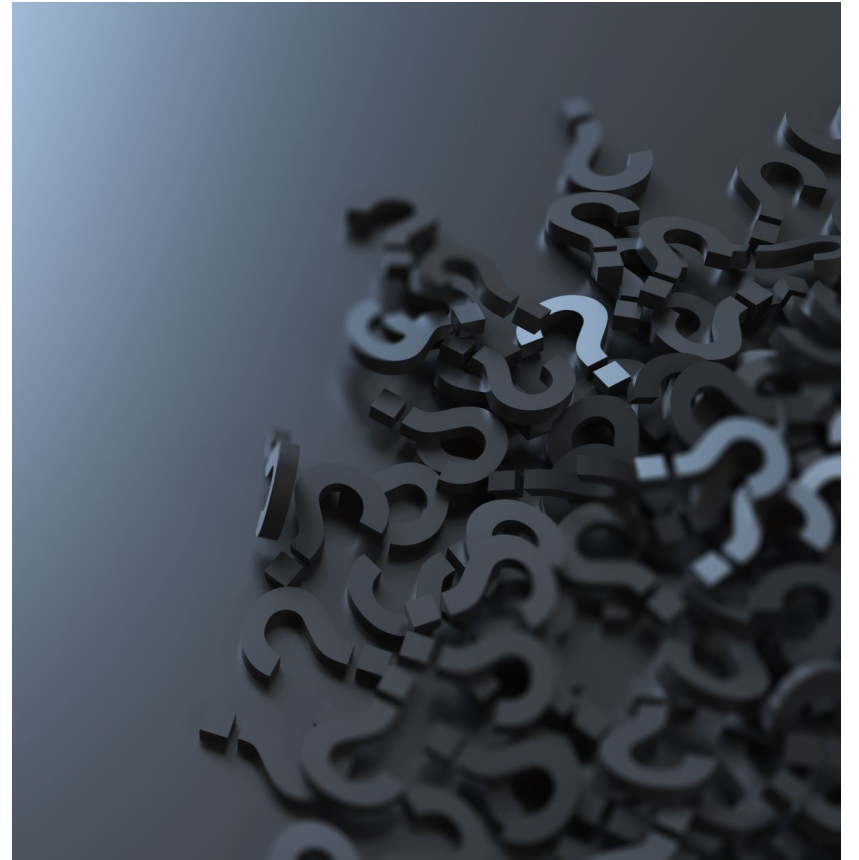

Seriously.

Go look up ideas and examples on your own, too.

# What are Typographic Posters?

---

- Basically, they are works where the **TYPOGRAPHY** (*the typefaces and text*) are the stars of the design with limited drawings or pictures.
- This design style has been around for a long time – creating multiple prints that use text was a lot easier (and cheaper) to reproduce compared to illustrations or early forms of photo-manipulation.
- You can find this style used where extra information is needed to be given to the viewer – *festivals, concerts, events, fairs, gatherings, etc.*
