Director **Steven Spielberg** presents a triumph of imagination, suspense, science and cinematic magic that has quickly become the most successful film in worldwide box-office history.

On a remote island, a wealthy entrepreneur secretly creates a theme park featuring living dinosaurs drawn from prehistoric DNA. Before opening the attraction to the public, he invites a top paleontologist, a paleobotanist,

a mathematician/theorist, and his two eager grandchildren to experience the park -- and help calm anxious investors. However, their visit is anything but tranquil as the park's security system breaks down, the prehistoric creatures break out, and the excitement builds to surprising results.

Based on **Michael Crichton's** best-selling novel, *Jurassic Park* stars **Sam Neill, Laura Dern, Jeff Goldblum** and **Richard Attenborough**. It's a breathtaking adventure you'll want to experience again and again.

"TWO THUMBS UP!"
 -SISKEL & EBERT

It's not easy being the most popular and glamorous girl at Beverly Hills High. Especially when you're the envy of scheming Betties (female babes), persistent Barneys (unattractive guys), loser loadies (potheads), and teachers who go postal (freak out) when you turn your homework in late! Yet somehow 15-year-old Cher (Alicia Silverstone) keeps it all together, even finding time for extracurricular projects like finding a love match for her debate class teacher (Wallace Shawn), and

giving a dowdy friend (Brittany Murphy) a fashion makeover. But Cher's tidy world starts to unravel with the sudden appearance of two total Baldwins (hunks): a sexy and stylish new classmate (Justin Walker), and Cher's square but cute "ex-stepbrother" (Paul Rudd). Now Cher is about to learn that when it comes to love, she's...well, **Clueless**.

Alicia Silverstone is "absolutely perfect" (Jeff Craig, *Sixty Second Preview*) in this hip, sassy comedy that's "wickedly funny" (Kenneth Turan, *Los Angeles Times*) and majorly chronic (for translation, watch the movie!).

STEVEN SPIELBERG Presents

BACK TO THE FUTURE

A ROBERT ZEMECKIS Film

One of the top grossing box office comedies of all time!

Steven Spielberg presents an irresistible comic fantasy that accelerates beyond the time barrier with wit, imagination and infectious, wide-eyed wonder. **Michael J. Fox** stars as Marty McFly, a typical American teenager of the Eighties accidentally sent back to 1955 in a plutonium-powered DeLorean "time machine" invented by slightly mad scientist **Christopher Lloyd**. During his often hysterical, always amazing trip back in time, Marty must make certain his teenage parents-to-be, **Crispin Glover** and **Lea Thompson**, meet and fall in love — so he can get back to the future. Directed by Robert Zemeckis, this delightful comedy-adventure will make everyone want to get *Back To The Future* over and over again.

"A movie for all ages."

— Gene Shalit, *The Today Show*, NBC-TV

"A wonderful fantasy. A delectable comedy."

— Kathleen Carroll, *New York Daily News*
