Illustrator: Square Meals

Task: Use the Shape and Shape Builder in Illustrator to create two different meal illustrations.

File Setup:
- Width: 1000 pixels
- Height 1000 pixels
- Artboards: 2
- Color Mode: RGB
- Raster Effects: Screen (72ppi)

Considerations:

Experiment with colours and stroke settings to see how they interact with your ideas.
You can get more information about using colours in Illustrator here.

What is the viewpoint of your design. Is it top down? From the side? 2 dimensional?

Criteria:

Technical (9 marks)
- Each design is created using the Drawing Tools outlined above.
- Attempts at using colour and stroke with designs.
- Clear use of layers

Creative (9 marks)
- Designs are recognizable.
- Appropriate scale (size) of items.
- Use of the entire canvas for each design. (Think of the background!)
