

```
1 from turtle import * # Connect the Turtle Graphics Library
2
3 # This is my first Python Program. print() the lines below.
4 print("Hello World!")
5
6 print("5 is smaller than 6.")
7
8 print(" //")
9 print(" /|")
10 print(" / |")
11 print(" /_ |")
12
13 # Write out code that will print a square shape.
14
15
16 # Write in code that will print the following in seperate lines.
17 # Your name
18 # Your school
19 # Your favoruite food
20
21 # Python prints all the code in top-down order.
22 # The space is not included in the Shell (output).
23
24 # Turtle Code
25 shape("turtle")
26
27 forward(100)
28 left(90) # Turns the Turtle in degrees.
29 forward(100)
30
31 # Use the Turtle command to draw the following...
32 # A Square
33 # A Triangle
34
```
