Taking Pictures

PART 1: Manual Mode (6 Pictures): *Make note of your settings for each photo*

1. Use camera settings as specified above.
2. Choose 2 subjects or scenes to capture **INDOORS**. Use the Light Meter (0) as needed.
3. Choose 2 subjects or scenes to capture **OUTDOORS**. Use the Light Meter (0) as needed.
4. Choose 2 subjects or scenes to capture **ANYWHERE**. Use the Light Meter (0) as needed.
5. **Review images**—do your photos have even lighting throughout? **YES**—move to next part. **NO**—try from the beginning OR see Mr. Goldsack

PART : Final Version

1. Upload your photos to your User Space/OneDrive.
2. Place your photos into a PowerPoint.
3. Include the settings (Aperture/Shutter Speed/ISO) with each photo.
4. Save your PowerPoint.
5. Download and Complete the Self-Assessment Form.
6. Hand in your PowerPoint and Self-Assessment.

Manual Mode Example: (don't use these numbers—these are just a visual example)

F-stop: 32
